Sealing Compounds

Food contact sealing compounds

SealdTack®: Our brand of water-based sealants intended for metal packaging. Water-based compounds intended for sanitary and food metal packaging, with a high solid content, are suitable for pasteurization, sterilization and hot filling processes.

- SealdTack®S-60
- SealdTack®S-55

General Line Sealing Compounds

SealdTack®: Our brand of water-based sealants intended for metal packaging. Water-based compounds for containers for technical use and aerosols that require great chemical resistance.

- SealdTack® G 68
- SealdTack® G 75
- SealdTack® G 75 G
- SealdTack® G 40
- SealdTack® G 30

Sealdtack

- SealdTack[®] complies with the following legislations: 21CFR175.300, 21CFR177.1210, EU10/2011, EU1935/2004.
 - SealdTack[®] is certified by the University of Zaragoza as a migration-free product. (Specific migration studies showed that there is no migration of compounds hazardous to health from the sealing compound to the food simulants. The migration was below the limits established by Regulation UE/10/2011 for all the compounds studied.)
